ABOUT CST

CST is Bhutan’s premier institute for engineering education. The nation’s leading institution offers internationally recognised bachelor’s and master’s degrees in various engineering fields. With over two decades of experience, CST has been shaping the future of engineering with a strong emphasis on hands-on learning, innovative research, and industry collaboration. CST currently offers master’s programmes in Renewable Energy and Construction Management providing advanced education and research opportunities for aspiring engineers.

- Stimulate entrepreneurial spirit and mindset among students by assisting them to put their creative ideas into action for solving real-life problems.
- Incubate and support innovative ideas to meet social obligations and enact wealth and employment generation.

READ MORE

### CST Mission

To offer internationally recognised programmes in science and technology.

### CST Vision

“A centre of excellence in science and technology enriched with GNH values.”

FACILITIES

## What We Provide

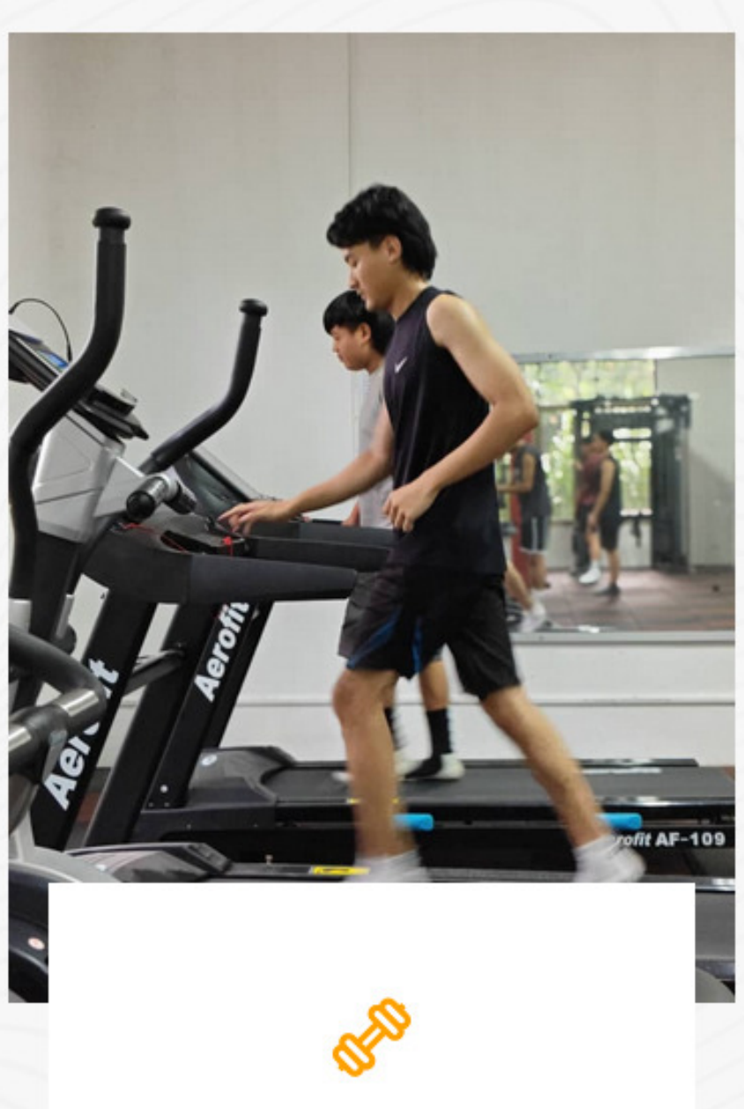
“Where Curiosity Meets Care“
Explore passions, build skills, and stay balanced with tech clubs, community service, health-care and counselling designed for your success.

### Academic Programmes & Laboratories

From Civil and Electrical to IT and Architecture, our programmes are backed by practical lab work.

### Research & Innovation: Bridging Ideas To Impact

CST bridges academia and industry with final-year projects, internships, and workshops that bring ideas to life.



### Sports & Fitness

With open grounds, indoor sports, and annual tournaments, CST encourages a healthy balance of academics and fitness

ACADEMIC

## Successfully Complete Your Degree

CST offers internationally recognised engineering and management programmes focused on hands on learning, innovation, and global relevance, ensuring students are well prepared for successful careers.
